

Moving between Refined Mobile and Desktop

Going to Refined Mobile interface

Depending on the settings for Refined Mobile configuration, users might be automatically directed to the mobile interface when accessing on a mobile device.

You can always visit the mobile interface by pointing your mobile browser to: `youBaseURL/m`

Going to Confluence Desktop

In the footer of your Refined Mobile, find "Classic".

Note: If you have Confluence Web mobile interface enabled, you might end up in Confluence Web Mobile. [Learn more here:](#)
